

## WORKS CITED PAGE

Academic honesty requires that you provide a complete citation of all your sources of information on a works cited page at the end of your essay.

To format the list of your sources, you should:

- centre the title of the page: Works Cited.
- list your sources in alphabetical order by using the first word in each citation (either the author's last name or the title of the work).
- double-space your entire list including individual entries.
- do not indent the first line of your entry but indent its second and subsequent lines by 0.5".
