March 1st, 2019

Dear parent of future grade 9 French Immersion student,

In keeping with the goals of the French Immersion program to provide authentic French experiences for students enrolled, we are excited to invite your son / daughter to travel to Quebec for "Carnaval" this coming February 2020 during their grade 9 year.

This travel opportunity meets the outcomes of several learning objectives - speaking in the target language being amongst the foremost. In Quebec, your son / daughter will authentically explore the history, traditions and will also become more familiar with many cultural aspects such as specific terminology, cuisine, dance, song, legend and sport in the French culture.

Our students in the grade 9 French Immersion program will explore Québec City and its annual highlight – Carnaval! They will take a guided tour of Québec City Streets, Château Frontenac, Dufferin Terrace, Notre-Dame de Québec Basilica and the Place Royale. They will also take a toboggan ride on Les glissades de la Terrasse, visit the Observatoire de la Capitale, take a tour of the Québec City Ice Hotel and partake in many of Quebec's Carnival cultural events.

SAVE THE DATE! We will be hosting a travel informational meeting on **Thursday September 5th, 2019 in room 114** (Mme Sexon's classroom) **at Campbell Collegiate.**

Due to the limited space on the trip, enrollment is now open to all future grade 9 Immersion students who plan to attend Campbell Collegiate in the fall of 2019.

Furthermore, there will be a meeting to form a fundraising committee on **Tuesday September 10th, 2019 in room 114.**

Online information and registration for this trip can be found here: www.eftours.ca/2119648UB

If families are wishing to enroll their child at this time or over the summer break, the registration link is now open.

Should you have any questions now or in the future about this French Immersion cultural opportunity, please do not hesitate to contact Madame Sexon at rochelle-ann.sexon@rbe.sk.ca

Warm regards,
Madame Sexon and Madame Gates
